THE COURSE

The **American College of Gastroenterology (ACG)**, in collaboration with **Endoscopy On Air (EOA)**, is proud to present the Inaugural Event: Diagnostic and Therapeutic UGI Endoscopy: Back to the Basics.

This dynamic, live-streamed event brings together leading gastroenterologists and endoscopists to showcase **basic and advanced procedures in upper gastrointestinal endoscopy**.

This event offers a unique opportunity for gastroenterologists to observe expert-led, live endoscopy cases in real time, **gaining practical insights** into both common and complex upper GI conditions. Attendees will learn essential techniques such as Barrett's esophagus imaging and therapy, esophageal dilation, stent and PEG placement, and endoscopic mucosal resection.
